

About EARLS

Your choice for quality spreaders and related equipment.

About the Company

EARLS is a dynamic, 3rd generation family owned and directed company currently in our 59th year of continuous operation in the Vancouver, Canada area. Over the course of the past several decades EARLS has grown to become a full fledged engineered product manufacturer. Currently we have equipment working throughout the western hemisphere and we are looking to add customers, partners, and agent representation around the world.

Our Manufacturing Facility

Our Metro Vancouver plant is located in the suburb of Port Coquitlam where we have a 21,000 sq ft factory and 7,500 sq ft office located on a 1.4 acre industrial property. The factory consists of three bays, one each for machining, welding/fabricating, and electro-hydraulic & mechanical assembly. All EARLS spreaders are built to order at this location.

Total Commitment

EARLS total commitment to the customer encompasses all aspects of product development, design, manufacture, marketing, and after sales service. The delivery of a product to a customer marks the beginning of a permanent relationship.

MODEL #206 Mechanical Spreader

Semi Automatic Mechanical Container Spreader
20' Fixed Position

Twistlock Pins & Nuts

- ✓ EARLS spreaders are equipped with fabricated twistlock pins and nuts that we manufacture in house.
- ✓ Twistlock position indicator flags show the lock, unlock status of the twistlocks at each end of the spreader.
- ✓ Deposit plungers prevent the twistlock pins from turning if the corners are not properly landed on a container.
- ✗ We do not use forged twistlock pins.

Quality Spreaders & Committed Service

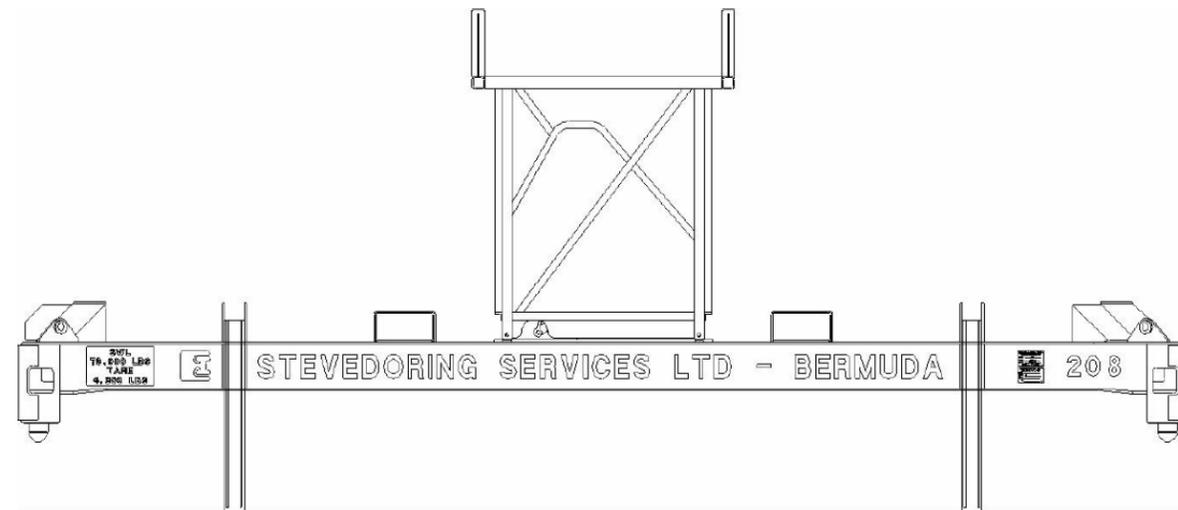

- ✓ The EARLS telescopic ship to shore container crane spreader has become renowned at many ports around the world as one of the best pieces of equipment available.
- ✓ EARLS Spreaders are built to order in a single facility and our product quality, support, and service are second to none.
- ✓ When you buy an EARLS spreader, in addition to getting a great product you're creating a lasting relationship.

Flipper Details

- ✓ Manually operated guide flippers assist in positioning the spreader onto a container.

Fully Mechanical Operation

- ✓ Mechanical interlocks prevent twistlock pins from turning when the spreader is not landed.
- ✓ Electrical proximities are optional.
